The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

There is a failure in the declaration to identify and specify the errors relied upon and how they arose. Applicant merely states at page 2, first full paragraph of the declaration:

"In particular, we believe tht the claims as issued are too noarrow given the breadth of the disclosure in the specification. We believe that this was the result of our patent attorney's failure to appreciate the full scope of the invention."

There is a lack of discussion why the claims should be broadened as set forth in claims 11, 23, 26 and 27 and where the claims are justified in the specification.

The above statement by the applicant does not clearly describe how the error was discovered and who discovered the error.

Claims 11-27 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
